SELECT AN IMAGE

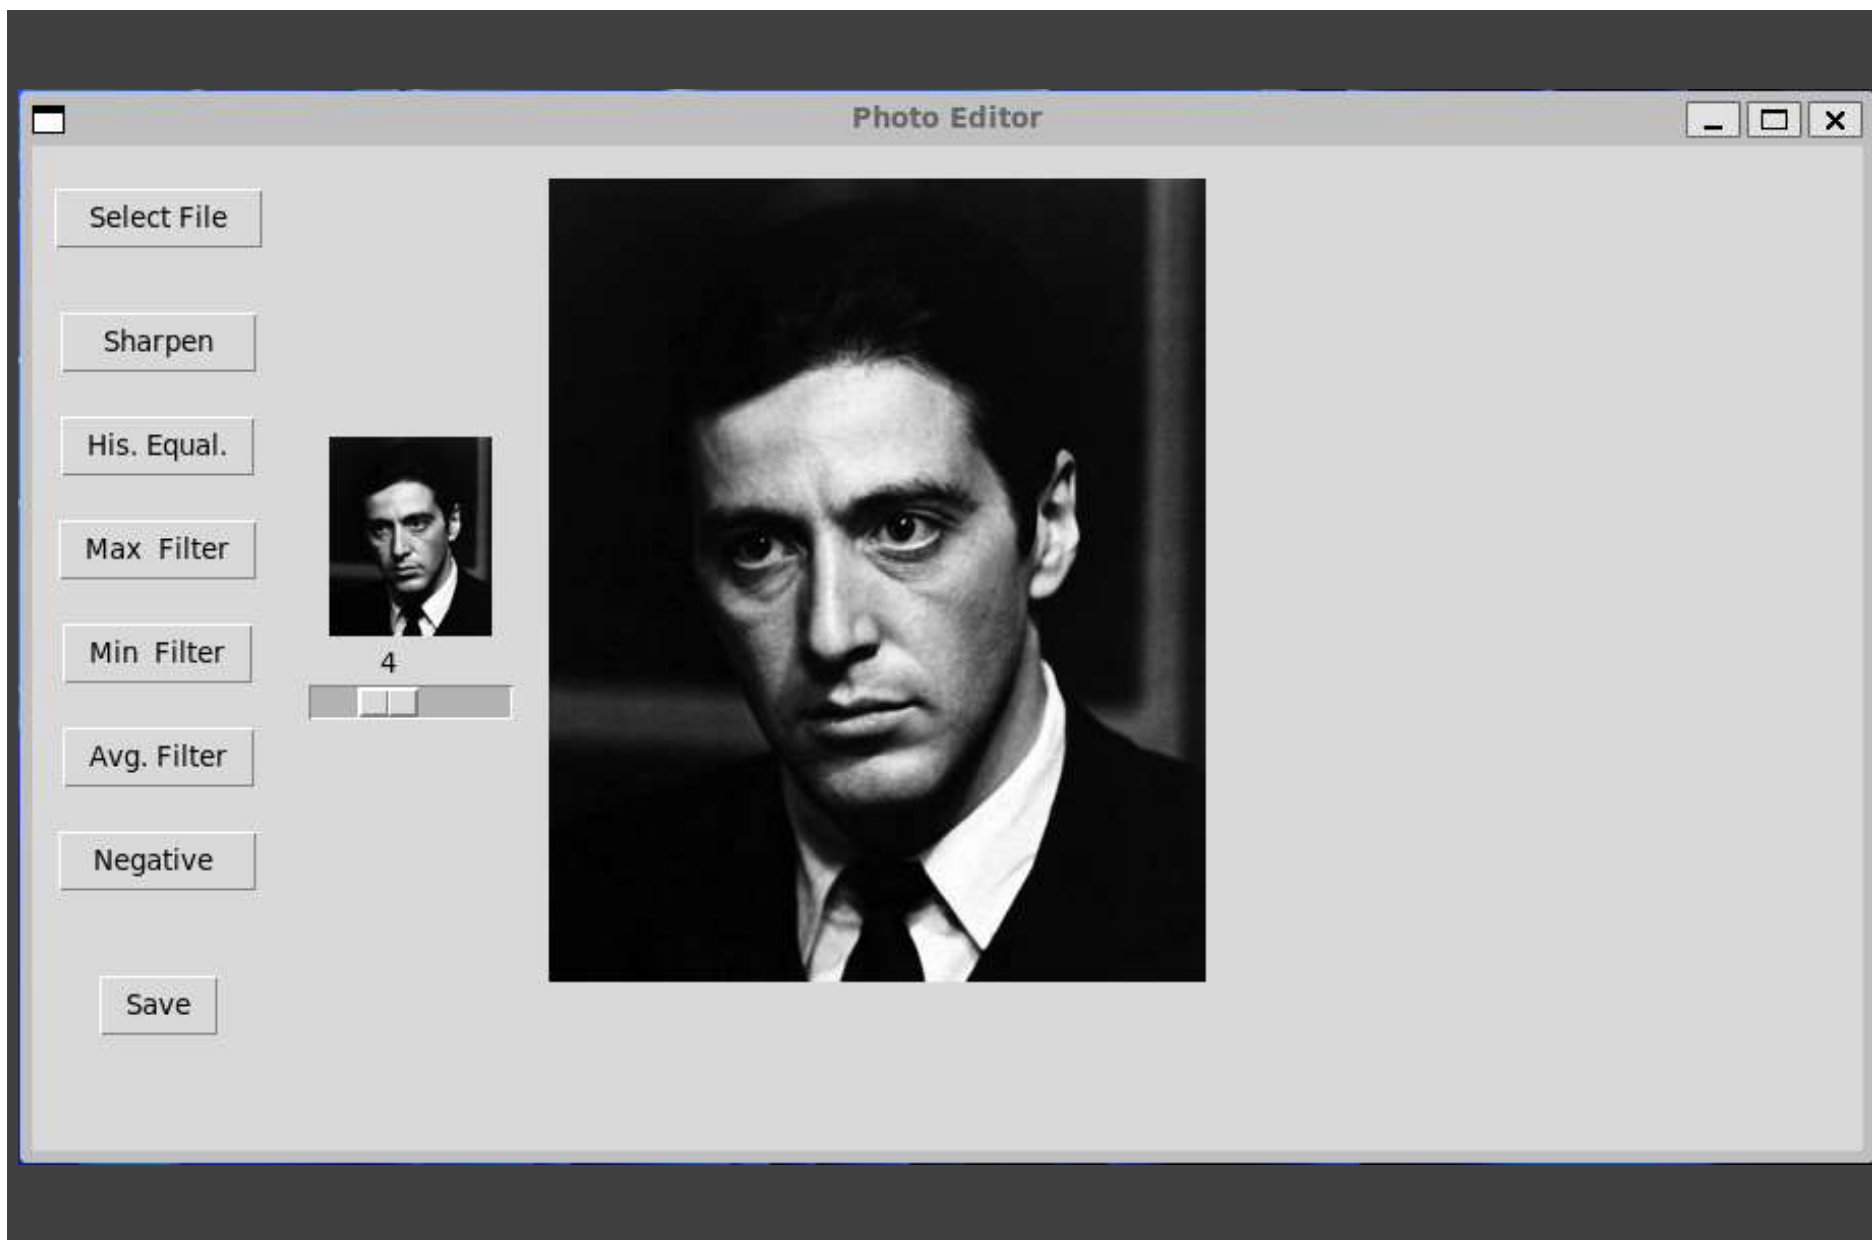

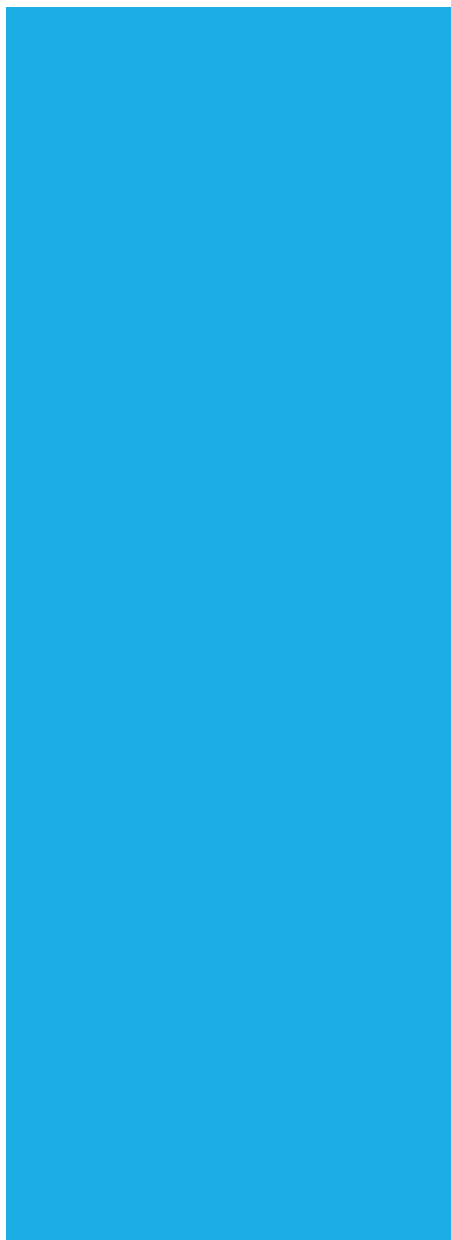

Our program is able to ask user to select image when user clicks the Select File button.

After the selection, program automatically shows the image on the screen.

APPLYING FILTER

Our program is able to six different filter on the original image:

- Sharpening
- Histogram Equalization
- Minimum Filter
- Maximum Filter
- Average Filter
- Negative of the image

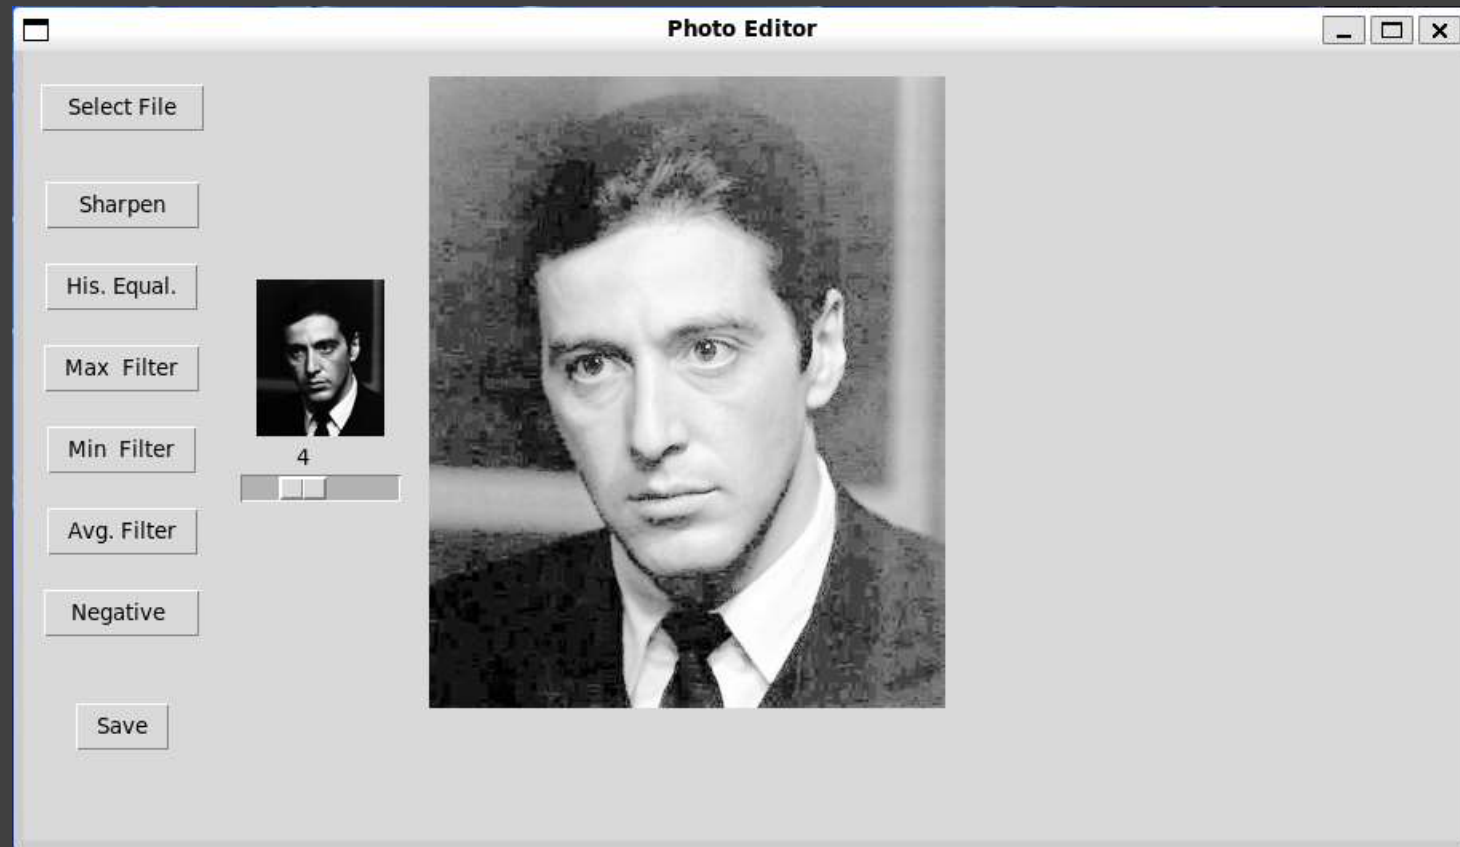

There is a slider for min, max and average filter`s size.

Also, user can save the modified image as jpg file.
